

Listing of Claims:

18. (Currently amended) A fishing lure, comprising:
a ~~spoonlike~~ body portion defining a spoon, wherein said spoon is convex;
at least one cavity formed in said spoon ~~body portion~~; and
a scent receiving element located in said at least one cavity,
wherein said spoon ~~body portion~~ defines a single plane and said
scent receiving element defines a plane, and said scent receiving
element being embedded in said spoon ~~body portion~~ such that said
plane of said scent receiving element is coplanar with said single
plane of said ~~body portion~~ spoon;
wherein said spoon has two sides, and wherein said scent
receiving element is exposed on both sides of said spoon.
20. (Canceled)
21. (Previously presented) The fishing lure of Claim 18,
further comprising means for securing said scent receiving element
in said at least one cavity.
22. (Previously presented) The fishing lure of Claim 18,
wherein said at least one cavity is a plurality of cavities, each
receiving a scent receiving element.
23. (Canceled)
24. (Canceled)

26. (Previously presented) The fishing lure of Claim 21, wherein said means for securing allows for repeated, selected attachment and removal of said scent receiving element to and from said body portion without the need to alter said lure.

27. (Canceled)

28. (Previously presented) The fishing lure of Claim 18, wherein said scent receiving element is unobstructed.

29. (Previously presented) The fishing lure of Claim 18, wherein said scent receiving element is sized and shaped to conform to a size and shape of said at least one cavity.

30. (Previously presented) The fishing lure of Claim 18, wherein said scent receiving element does not interfere with the motion of said lure.

31. (Previously presented) The fishing lure of Claim 18, wherein said body portion and said scent receiving element cooperate to define a continuous and smooth surface.

32. (Canceled)
